Emerging headlines around the **Global Strategy**

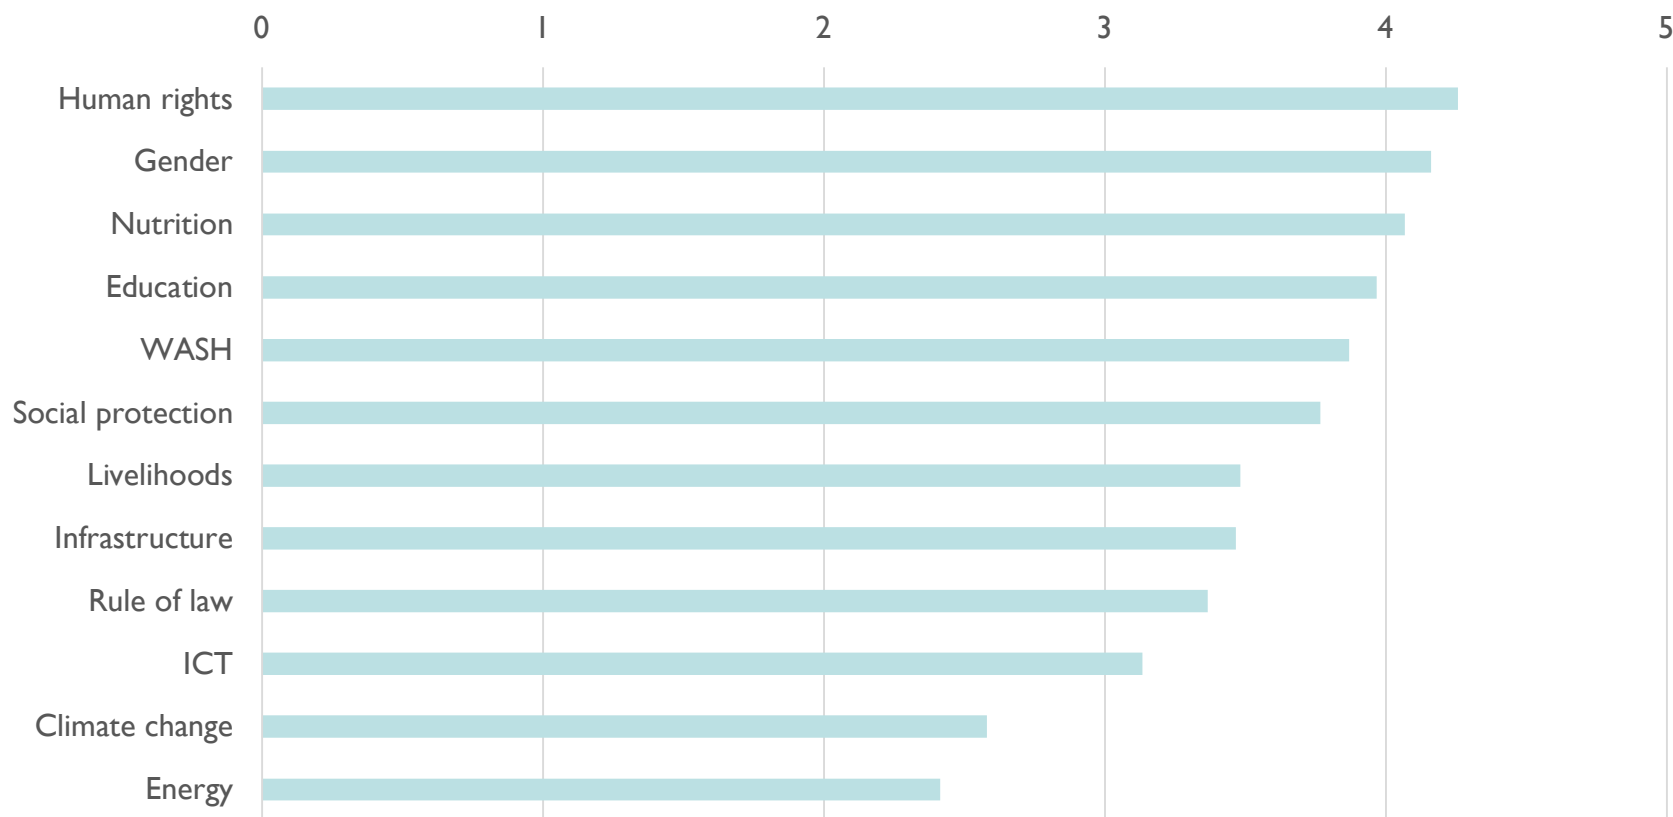

The GFF is seen as an **opportunity** to build long-term domestic financing for RMNCAH

And a good chance to work at the **interface of sectors** on challenging problems

Q12. Average rating of the priority the GFF should give to proposed sectors

(5= high, 1= low, 0= should be not addressed at all)

Most articulated **concerns** – across constituencies

- ◆ Protecting sexual and reproductive health and rights (SRHR)
- ◆ Country ownership, country leadership, country priorities, country commitments
- ◆ Learn lessons from other funds (GAVI, GFATM) and build on what's already working in country (eg FP2020, IHP+)

... and outstanding questions -

- ◆ How funds will flow in the GFF?
- ◆ Is this all new funding and additional?
- ◆ How does IDA work in practical terms?
- ◆ How will the GFF add value & reduce fragmentation?
