Improving maternal, newborn, and child health through active partnership

PMNCH Knowledge Summaries

16 - Parliamentarians

Thousands of women and millions of children’s lives are lost each year unnecessarily. Over 300,000 deaths among women are attributed to pregnancy and childbirth complications. In and 2018 there were 21 million under five deaths. About 7.5% of women aged 15-49 years of age were married under the age of 18 (2013) and over 40% (3.3 million) of them happened in the first month of birth. In addition, there are 2.6 million stillbirths each year globally. The needless loss of these lives is testament to deserving women and children their right to life. Recently, this was recognized by the Human Rights Council resolution on preventable maternal mortality and morbidity and human rights.

Fewer women and infants died due to pregnancy and childbirth complications in 2015 than in 1990. But, the average annual decline in the maternal mortality rate was 2.5% per year (1990 to 2005) instead of 5.5% - the rate required for achieving the Millennium Development Goal (MDG) 5. Although 20% of all deaths are under 5 years of age, only 5% are maternal deaths.

**Mission:** Supporting Partners to align their strategic directions and catalyse collective action to achieve universal access to agreed essential interventions for women’s and children’s health

- **SO1:** Broker knowledge and innovation for action
- **SO2:** Advocate for mobilising and aligning resources and for greater engagement
- **SO3:** Promote accountability for resources results

Fulfillment of Partnership’s role as part of the Countdown to 2015 workplan

Promote implementation of, and access to, essential RMNCH interventions

Efficient, effective and inclusive Partnership Governance/administration
Strategic opportunities and challenges in 2012-15

- Addressing funding gap and consultations on aid effectiveness/efficiency
- Support implementation of essential interventions
- Strengthen linkages with complementary initiatives e.g. Global Fund, NCDs, Decade of Vaccines
- Increase ‘demand' side focus:
Strategic opportunities and challenges in 2012-15 (continued)

- Ensuring stronger, more inclusive partner engagement with Outcome Coordinators
- Building shared understanding of goals and actions
- Ensuring secretariat has capacity and flexibility to deliver on workplan and meet evolving demands
