2. PMNCH 2012-2015
The PMNCH Strategic Framework

| VISION | The achievement of Millennium Development Goals, with women and children enabled to realize their right to the highest attainable standard of health in the years to 2015 and beyond. |
| MISSION | Supporting Partners to align their strategic directions and catalyze collective action to achieve universal access to comprehensive, high-quality reproductive, maternal, newborn and child health care. |
| ADDED VALUE | To be an institutional platform bringing together and enhancing the interaction of Partners focused on improving the health of women and children, working across the reproductive, maternal, newborn and child health Continuum of Care. In essence, enabling Partners to share strategies, align objectives and resources, and agree on interventions to achieve more together than they would have been able to achieve individually. |
