Advocacy (UNF, One, PMNCH)

Aim of the Global Effort

To increase political and financial commitments and ensure more effective delivery of RMNCH services, while putting in place an accountability framework to track progress

Building the Joint Action Plan

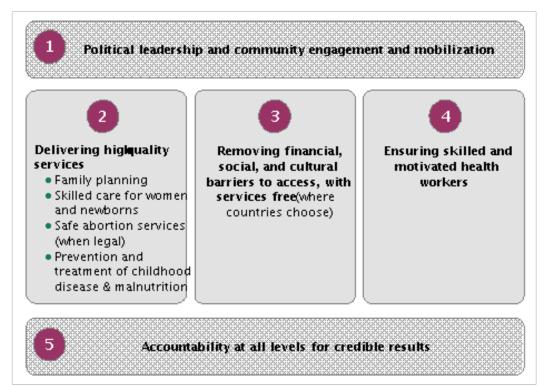

- Will incorporate country-led health policies and plans that are evidence-based, building upon existing and new innovative solutions that have been successful in the filed.
- Financial estimates from HLTF
- Existing and emerging financing mechanisms to make sure funds get to the women and children who need them,

Building the Joint Action Plan

 Evidence-based priority interventions and strategies following the five pillars of the Global Consensus for MNCH

Agreed draft outline of the Joint Action Plan for heads of states

1. The intent of the JAP – what it is and it isn't

2. Investing in the health of women and children makes good sense – **making the investment** case

3. An effective, joint approach is needed to accelerate and track progress – we know what works = the MNCH consensus

Agreed draft outline of the Joint Action Plan

- 4. The business case what are the additional costs, financial gap, financial plan, what will the money buy (lives saved, etc) and funding mechanisms (how to get international health architecture working better for RMNCH in an integrated approach to the three health MDGs?
- 5. Targets and Tracking to Boost Accountability accountability framework with targets / score card

Consultation & commitment process: May-Sept

UNSG's Global Effort and PMNCH strategy

PA5 – Advocacy for increased funding and better positioning of MNCH in the development agenda

- Totally in-line with PA5 and PMNCH added value work plan, as this will hopefully lead to increased political commitments, funding and operationalization of the MNCH Consensus.
- Great opportunity as Effort is lead by UNSG,
 greater political commitment and accountability
- Also gives PMNCH an enhanced role in an enhanced representation of through active partnership

For Board Discussion and Decision

- 1. Effective consultation process to get inputs from our various constituency group into the JAP document development?
- 2. What messages and materials should PMNCH produce, endorse and disseminate that would be effective background doc or complementary to the JAP?
- 3. How can we use the PMNCH constituency structure to effectively galvanize commitments (political, financial and delivery), ensuring that all Board members are active champions?
