Partner Engagement in Countries Committee: key priority areas

Global

• Strengthening member and partner engagement through supporting the development and wide dissemination of advocacy, accountability and knowledge global good and resources for all partners to use at global, regional and country level by developing tailored country-level advocacy strategies and accountability plans.

Regional

• Providing guidance on working with regional mechanisms to create an enabling environment for national action by supporting these mechanisms in developing regionally relevant tools and resources and in their capacity building efforts e.g. with EWEC Latin America and the Caribbean, the African Union, Regional Economic Communities, and regional parliaments.

National

• Providing guidance enhancing current partner engagement at country level to orchestrate and support multipronged advocacy efforts, engaging partners and constituencies from the grassroots to the highest political level in order to deliver. This will ensure the generation of data analyses, advocacy and communication documents, campaign events, and workshops.

• Identifying synergies with other relevant platforms/campaigns at country level, e.g. GFF, GAP/SDG3 and UHC-Partnership, and stimulate institutional/cross-sectoral collaboration to avoid duplicating efforts and optimize the use of technical and financial resources. This will enable tracking the implementation of country campaigns through national multi-stakeholder mechanisms.
Thank you!
