ANALYSIS						
Increase access to and use of knowledge to enhance policy, service delivery and financing mechanisms for WCAH	Facilitate consultation, consensus building, and knowledge synthesis development and dissemination, including digital content	WCAH in UHC advocacy brief developed ( <a href="https://www.who.int/pmnch/knowledge/publications/PMNCH_WCAH_brochure.pdf?ua=1">https://www.who.int/pmnch/knowledge/publications/PMNCH_WCAH_brochure.pdf?ua=1</a> ) to amplify key evidence and arguments for why addressing WCAH is central to achieving UHC and the SDGs, and to demonstrate the return on investment for proven and cost-effective WCAH interventions. The document was disseminated widely and resulted in more prominent inclusion of WCAH in WHA’s UHC resolution ( <a href="https://apps.who.int/gb/ebwha/pdf_files/EB144/B144_R9-en.pdf">https://apps.who.int/gb/ebwha/pdf_files/EB144/B144_R9-en.pdf</a> ), IPU’s UHC resolution ( <a href="https://www.who.int/pmnch/media/news/2019/Belgrade-resolution.pdf?ua=1">https://www.who.int/pmnch/media/news/2019/Belgrade-resolution.pdf?ua=1</a> ) and UNGA’s UHC declaration ( <a href="https://undocs.org/en/A/RES/74/2">https://undocs.org/en/A/RES/74/2</a> ).
