Every Woman Every Child Architecture Review: Concept Note

Dr Gillian Turner, Senior Health Adviser, DFID & Board vice-Chair

The Partnership for Maternal, Newborn & Child Health

Secretariat Hosted by the World Health Organization and Board Chaired by Mrs Graça Machel
Context & Rationale

- Global Political, Financial and Development Shifts
- EWEC Partners’ Framework
- PMNCH’s Context

The potential benefits of a more streamlined architecture are multiple, e.g.:

- Increased financial efficiency;
- Better programmatic coherence;
- Greater appeal to donors; and
- Improved clarity for partners in country.
Scope

- The governance and institutional review of the EWEC architecture will focus on **CORE PARTNERS of the EWEC architecture:**
  - UN Secretary General Office, including the High Level Steering Group;
  - H6 and partners;
  - PMNCH;
  - GFF Investors Group
Outputs

- An in depth analysis of the current EWEC architecture
- A set of options for closer governance and institutional alignment of core partners of the EWEC architecture
- The value-add of core partners of the EWEC architecture for each of the options.
Methodology

- It is proposed that the PMNCH Executive Committee appoints a time-limited EWEC Governance & Institutional Review Working Group to oversee the process.
- This review will be carried out by an independent consultant(s), selected through a transparent procurement process.

**Membership of the Working Group**

- Representatives of PMNCH ten constituencies
- Chair of PMNCH Governance & Nominations Committee
- PMNCH Secretariat leadership
- EWEC EOSG Secretariat leadership
# Key Deliverables & Timeline
