Global Financing Mechanism Update **Achieving Greater Efficiencies Through Better** **Coordination at Country Level**

Anuradha Gupta, Deputy CEO, Gavi

The Partnership for Maternal, Newborn & Child Health

The Global Financing Mechanisms

- PMNCH's **newest constituency**
- Comprised of the **3Gs**: Gavi, The Global Fund and Global Financing Facility
- Together, the 3Gs represent the **bulk of global financing** for women, children and adolescents
- Each has a distinct focus and different approaches but there is **high complementarity** in support of SRMNCAH
- Together, the 3Gs investments at country level lay the **foundation for UHC**

Key Areas of Complementary Action

- ✓ **Clarity and** consensus at global level: amplify the impact of each other's investments
- ✓ **Alignment and coordination at country level:**
opportunities for a holistic needs analysis, integrated planning and monitoring
- ✓ **Domestic resource mobilisation & transition financing:**
joint advocacy, coordinated efforts for successful transition
- ✓ **Maximising efficiencies:** more health for money

Proposed Tools for Alignment

1. GFM Virtual Space
2. Technical Session & Webinars
3. Evidence & Tools
4. Engagement Across PMNCH Constituencies
5. Joint Country Missions

Thank You
