

2025 highlights

- ✓ **A platform for change.** For the first time since the pandemic, the national WCAH coalition reconvened to accelerate multisectoral advocacy.
- ✓ **Scoping of commitments.** A national review identified concrete pathways to strengthen implementation of WCAH commitments.
- ✓ **Advocacy for SRHR.** CAAP supported the development of South Africa's Family Planning commitment.

In South Africa, progress is built through consensus. Through CAAP, we are taking the time to listen, align and move forward together, step by step and bit by bit, because this inclusive process will deliver greater and more lasting impact for women, adolescents and children."

Dr Gugulethu Ngubane
CHAI South Africa
