

Strategic Objective 1: Prioritise Engagement in Countries

Ted Chaiban | UNICEF, on behalf S01 Co-convenors

The Partnership for Maternal, Newborn & Child Health

SO I Status Report: Implementation of 2017 work plan

- SOI Value-add document developed / approved by EC
- Guidance Note on Inclusive Multi-stakeholder Country Platforms in Support of Every Woman Every Child developed with GFF
- Outcomes of two SOI country missions and subsequent consultations with in-country partners inform design of tailored activities. In-country partners consensus and engagement; proposed areas of collaboration agreed in
 - **Malawi**
 - **India**

PMNCH's value proposition at the country level

Five proposed areas of support

1 Promote inclusive & meaningful **multi-stakeholder engagement**

2 Strengthen and align **accountability** processes

3 Strengthen **cross-sectoral linkages**

4 Support **joint advocacy**

5 Facilitate **learning and exchange**

Key areas prioritized by in-country partners: Malawi

- **Multi-stakeholder platforms:** align & strengthen existing planning, coordination & governance structures/processes related to SRMNCAH
- **Social accountability:** align efforts; document for impact evaluation, best practices and scale up; link efforts at sub-national level with national level accountability mechanisms
- Joint advocacy for **QED & Adolescent Health**

Progress & next step:

- Activity plan developed based on 3 in-country consultations in **14 -17 Feb; participation of 80 +** organizations; multi-sectoral engagement
- 10 May: in-country partner meeting; **agreement reached on proposed areas of work**, lead in-country partners identified to lead work streams
- PMNCH invited to support stakeholder mapping for SRMNCAH national platform

Chief Theresa Kachindamoto
at Adolescent Health consultation
convened by MOH In collaboration
with PMNCH **17th Feb, 2017**

Key areas prioritized by in-country partners: India

- **Multi-stakeholder platform:** Revival of existing RMNCH Coalition
- Documentation and institutionalization of existing **social accountability** work; best practices for south – south learning
- **Joint advocacy** for advancing policies and programmes for **adolescent health and well being and QED**

Progress & next steps

- MoHFW led consultation on restructuring existing adolescent health programme in March 2017
- PMNCH invited to develop an advocacy plan for multi-sectoral action on adolescent health and well-being
- Follow-up on 09th May 2017, agreement on areas of work, lead partners identified, small working groups created for each work stream

Direction of travel

- **Nigeria:** discussion on PMNCH's support for ongoing work on QED and multi-stakeholder platforms; country specific needs
- **Accountability:** define scope of efforts; develop a portfolio/menu of service linking global, regional and national activities; strategy for social accountability; link work across SOs
- **Reflections/ lessons learnt:** private sector engagement; youth lead advocacy and its impact on results for health
- **Country consultations:** opportunity for wider, inclusive and multi-sector engagement
